Recom Managed Systems, Inc. Expands Corporate Team for Continued Growth and Expansion with New Director of Business Development

Mr. James Mazeika to Lead Marketing Efforts of Company's Revolutionary Heart Monitoring Device

LOS ANGELES--(BUSINESS WIRE)--Feb. 29, 2004--Recom Managed Systems, Inc. (OTCBB:RECM - News) Recom Managed Systems, Inc., a leader in innovative design and development of medical devices containing the company's proprietary signal processing technology, announced today that James Mazeika has joined the Company as Director of Business Development. Mr. Mazeika will head the marketing efforts of Recom's revolutionary Model 100 Device for the remote monitoring of clinical quality, real-time ECG signals from cardiac patients. The company announced last week that it has received approval from the Federal Drug Administration to market the device.

Mr. Mazeika has 24 years of experience in the development and marketing of similar medical devices in business development positions at Bard Endoscopic Technologies and as General Manager at Teledyne Medical and Mallinckrodt Medical. Some of the projects that Mr. Mazeika has successfully led include a sleep/epilepsy monitor, ECG/EKG electrodes and devices to prevent blockages in coronary arteries.

"We are truly excited to add Jim to our team," commented Marvin Fink, CEO of Recom Managed Systems. "Jim's background and experience in the cardiology market were exactly what we were looking for to launch our first ground-breaking product. We have now added a great Director of Business Development to a great product, and I look forward to a bright future."

"I am pleased to join Recom at such an exciting stage in its lifecycle," commented James Mazeika. "During my career in the medical device industry and specifically the cardiology segment, I have seen first hand the need for Recom's Model 100 Device -- it is critical for doctors and care givers to have clinical quality 12 lead EKG data in an ambulatory setting. I look forward to implementing our marketing strategy which will leverage my core experience in building strategic partnerships as well as partnering with leading clinical institutions to accelerate the market penetration of the Model 100," said James Mazeika, Recom Managed Systems, Inc's new director of business development.

Recom Managed Systems, Inc. is an emerging life sciences company focused on the monitoring and detection of disease through continuous biomedical signal monitoring. Recom Managed Systems, Inc. uses its patented signal technology to design and develop FDA-approved medical devices that simplify and reduce the costs of diagnostic testing and patient monitoring in an ambulatory setting. With our patented signal technology platform, Recom brings clinical quality physiological signal monitoring to the ambulatory setting.

Caution Regarding Forward-Looking Statements

Statements in this release that are not strictly historical are “forward-looking” statements. Forward-looking statements involve known and unknown risks, which may cause Recom’s actual results in the future to differ materially from expected results. Factors which could cause or contribute to such differences include, but are not limited to failure to complete the development and introduction of new products or services, failure to obtain federal or state regulatory approvals governing medical devices, monitoring and other related services or products, inability to obtain physician, patient or insurance acceptance of Recom’s products or services, adverse equity market conditions and declines in the value of Recom’s common stock, and the unavailability of financing to complete management’s plans and objectives. These risks are qualified in their entirety by cautionary language and risk factors set forth and to be further described in Recom’s filings with the Securities and Exchange Commission.
