Signalife to Present at Upcoming Heart Rhythm Society Meeting May 2006. Signalife to join Cleveland Clinic physicians in addressing Heart Rhythm Society audience

GREENVILLE, S.C., Feb. 13 /PRNewswire-FirstCall/--Signalife, Inc. (Amex: SGN - News) a medical device company focused on the detection of cardiovascular disease through continuous ECG signal monitoring, today announced that it will participate in the Heart Rhythm Society Meeting 2006, 27th Annual Scientific Session with physicians from the prestigious Cleveland Clinic. The presentation titled "A Novel Portable Wireless Multi-channel ECG and Intracardiac Recording System" is scheduled for May 20th at the Boston Convention & Exhibition Center in Boston, MA. Presenters include Dr. Mauricio Arruda of Cleveland Clinic and Budimir S. Drakulic, PhD, CTO of Signalife, Inc.

Heart Rhythm Society is the international leader in science, education, and advocacy for cardiac arrhythmia professionals and patients, and the primary information resource on heart rhythm disorders.

"We have made great progress in the development and validation of our high-fidelity signal processing platform for biomedical signal recordings," said Dr. Budimir S. Drakulic, Signalife's Chief Technology Officer. "In our collaboration with Dr. Andrea Natale and Dr. Arruda of the electrophysiology laboratory at Cleveland Clinic, we were able to successfully apply our patented technology to intracardiac recordings during catheter ablation procedures. This conference will provide a great opportunity for Signalife to introduce its technology to the Heart Rhythm Society audience."

"We are pleased with initial results obtained with the new wireless multi-channel ECG and Intracardiac recording system from Signalife," said Dr. Natale, Co-Section Head of Pacing and Electrophysiology in the Cleveland Clinic Department of Cardiovascular Medicine.

About Cleveland Clinic

Cleveland Clinic, located in Cleveland, Ohio, is a not-for-profit multispecialty academic medical center that integrates clinical and hospital care with research and education. Cleveland Clinic was founded in 1921 by four renowned physicians with a vision of providing outstanding patient care based upon the principles of cooperation, compassion and innovation. U.S. News & World Report consistently names Cleveland Clinic as one of the nation's best hospitals in its annual "America's Best Hospitals" survey. Approximately 1,500 full-time salaried physicians at Cleveland Clinic and Cleveland Clinic Florida represent more than 100 medical specialties and subspecialties. In 2004, patients came for treatment from every state and 100 countries. Cleveland Clinic website address is www.clevelandclinic.org.

About Signalife

Signalife, Inc. is a medical device company focused on the detection of cardiovascular disease through continuous ECG signal monitoring. The company's goal is to become the premier global provider of cardiovascular disease monitoring products. Signalife uses its patented signal technology to design and develop medical devices that simplify and reduce the costs of diagnostic testing and patient monitoring in an ambulatory environment. Signalife's revolutionary FDA-approved patented electrocardiograph (ECG) monitoring system called Fidelity 100 allows for the recording of a high-quality ECG signal from ambulatory cardiac patients. The Fidelity 100 will address a portion of \$400 billion cardiac disease market.
